Summary

A fresh graduate in Computer Science passionate about Web Development, with a good experience in .NET technologies [C#, OOP, SQL, LINQ, EF Core, MVC, WEB API]. seeking a challenging position to leverage my technical skills in a fast-paced and innovative environment, contributing to impactful projects.

Education

Bachelor's degree in computer science

(Sep 2020 – June 2024)

Faculty of Computers and Artificial Intelligence, **Cairo University**

(GPA: 3.12 / 4.00)

Training and Scholarships

- 6 months training at **DEPI** (ASP .NET track) (2024)
- 126 hrs. training at **ITI** (ASP .NET track) [Certificate](#) (2023)
- Web Development internship at **Code Soft** [Certificate](#) (2023)
- **Cyber Talents** Blue Team Scholarship 2023 [Certificate](#) (2023)
- Intro to Cybersecurity Bootcamp at **Cyber Talents** [Certificate](#) (2022)

Technical Skills

- C#
- Entity Framework
- SQL Server
- LINQ
- MVC
- ASP.NET Core
- REST
- Bootstrap
- HTML
- CSS
- JavaScript
- C++
- Python
- Java
- Design Pattern
- OOP
- Solid Principles
- Data structure
- Operating system
- Git Version Control
- clean architecture

Projects

• Online Learning Platform [Source Code](#)

- a web application for managing courses and student enrollments. Built with **ASP.NET Core**, it features role-based access control and user authentication. Students can browse and enroll in courses, while administrators manage

content. The platform also supports progress tracking and a user-friendly interface.

- **technologies:** ASP.NET Core, MVC, Entity Framework, Asp.net Identity

• Deepfake Detection System (Graduation Project) [Source Code](#)

- a system designed to ensure digital media integrity. Utilizing ResNeXt-50, LSTM, and fully connected layers, it achieves 95.22% accuracy. Integrated into a scalable web app, empowers users to detect manipulated videos, fostering trust in digital content.
- **technologies:** Python, PyTorch, Google Collab, OpenCV, Flask, Dlib

• Ecommerce (back-end) [Source Code](#)

- A fully functional Ecommerce platform, Role-Based Authorization: Different roles (seller and client)
- **technologies:** ASP.NET Core, MVC, Entity Framework, SQL, LINQ, C#, Bootstrap

• Learning Management System (back-end) [Source Code](#)

- Dashboard for admin to add edit delete instructors, courses, and trainees.
- **technologies:** ASP.NET Core, MVC, Entity Framework, SQL, LINQ, C#, Bootstrap

Additional Experience

- Member of the Backend team in **GDSC** (2023-2024)

Soft Skills

- Effective communication
- Strong presentation abilities
- Time-management
- Adaptable to both independent work and collaborative team environments
